

GET A FRESH COAT OF DURABILITY.

Paint...consider it our cherry on top. If you need to increase your metal project's durability, aesthetics and longevity, our paint department is ready to take you there.

We're metal experts, which means we've mastered the art of preparing metal for a fresh coat of paint. Our paint experts use state-of-the-art paint booths and equipment to ensure the highest quality finish on every product.

As a full-service fabricator, we can tackle your project from start to finish or partner with you on paint only. You name it, we paint it.

PREPERATION

Our skilled technicians employ industry-leading techniques to clean and prime surfaces, ensuring optimal adhesion and longevity for your finish.

WET PAINT APPLICATION

With a keen eye for detail our range of high quality paints and finishes will exceed your expectations.

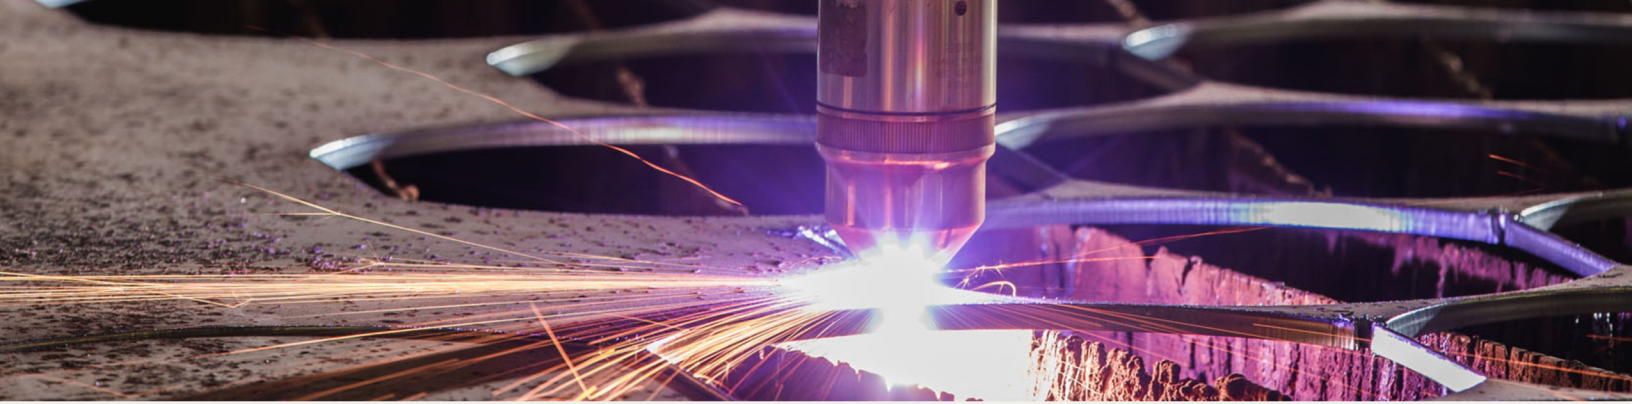

BLASTING SERVICES

Utilizing cutting-edge equipment from Empire Abrasive Equipment, our blasting services guarantee the removal of rust, scale, and imperfections, leaving behind a pristine surface ready for paint.
